Invitation

Dear colleagues,

On behalf of the Organizing Committee of the 77th Korean Congress of Radiology (KCR 2021), it is my great honor and pleasure to invite you to KCR 2021 to be held from September 1 (Wed) to 4 (Sat), 2021 in Seoul, Korea.

The world is still going through an unprecedented period, with the prolonged COVID-19 pandemic thrusting everyone into an era of the New Normal. But thanks to the concerted efforts of everyone concerned, we have now entered a “distancing in daily life” phase whereby we may practice disease prevention while picking up on our economic and social activities and resuming our daily lives.

As such, KCR 2021 will be held as a hybrid congress whereby participants will be able to attend sessions on-site with the option of participating on-line should they prefer to. Interaction is a key element in maintaining a strong bond between the members of our radiology community, and must continue to be fostered. Although we may not be able to see everyone face to face this time, we are preparing a rich program that participants can fully engage in and enjoy whichever way they may choose to join us. We will, of course, continue to monitor the COVID-19 situation closely, and follow all government-recommended quarantine guidelines to ensure the safety and wellbeing of all our participants.

With the start of my presidency, KCR proposed a new theme: “Leading patient-centered digital healthcare.” It seeks to emphasize the importance of taking patient-centered initiatives in the digital age in order to prepare for the future and strengthen our competitiveness.

In line with the above, the Organizing Committee is designing the best possible program with high quality scientific sessions that will provide a great opportunity for all participants to keep up-to-date with the latest research findings. To serve this purpose, KCR 2021 is planning to invite about 40 world renowned scholars from over 10 countries along with distinguished radiology experts from Korea. Among them, Dr. Howard B. Fleishon (Emory Johns Creek Hospital) will speak at the Congress Lecture, and Dr. Regina Beets-Tan (The Netherlands Cancer Institute), Dr. Noriyuki Tomiyama (Osaka University Graduate School of Medicine), and Dr. Jae Hyoung Kim (Seoul National University Bundang Hospital) will deliver Plenary Lectures.

It is the wish of the Korean Society of Radiology (KSR), the organizing society of KCR, to have the privilege to share its experience and knowhow with colleagues from all over the world through KCR 2021. We will devote our utmost effort to prepare a most meaningful and enjoyable hybrid congress for on-line and on-site participants alike.

Please stay safe and healthy until we meet you at KCR 2021!

Jeong Min Lee, MD, PhD
President, Organizing Committee
77th Korean Congress of Radiology

I Why Attend KCR 2021?

- 3,500 participants from all around the world
- Hybrid Congress with online and offline sessions
- Extended period of 4 days for even more knowledge and information
- Invited lectures by world-renowned invited speakers
- Intersociety Joint Symposia with international societies
- Oral & poster presentations on various fields of radiology
- Excellent posters from 16 international congresses, including ARRS, ECR, and RSNA
- Congress venue fully ready for prevention of infections

Leading Patient-centered Digital Healthcare

Early Registration Due Date
June 20 (Sun) 24:00
(Korea Standard Time, GMT +9)

Presenter Registration Due Date
June 20 (Sun) 24:00
(Korea Standard Time, GMT +9)
Abstract presenters of the Scientific Session or Exhibition should register within the early registration period.

Pre-registration Due Date
July 21 (Wed) 24:00
(Korea Standard Time, GMT +9)

Accommodation Reservation Due Date
July 21 (Wed) 24:00
(Korea Standard Time, GMT +9)
The Korean Society of Radiology (KSR) was established in 1945, and is the official society representing all physicians of Korea in the field of radiology. KSR is the foremost society in Korea and a leader in Asia-Pacific radiology.

### Publication

The official journals of the society are the Journal of the Korean Society of Radiology (JKSR) and Korean Journal of Radiology (KJR).

**The Journal of the Korean Society of Radiology** is a Korean journal with English abstracts.

**The Korean Journal of Radiology** is an English journal which is currently indexed/tracked/covered in MEDLINE, PubMed, PubMed Central, Science Citation Index Expanded (SCIE), KoreaMed, Synapse, KoMCI, SCOPUS, Embase, and Google Scholar. The journal aims to produce and propagate knowledge on radiologic imaging and related sciences. The impact factor of the KJR in 2019 was 3.179.

The inaugural issue of the KJR was published in March 2000. A unique feature of the articles published in the journal is their reflection of global trends in radiology combined with an East-Asian perspective. Geographic differences in disease prevalence are reflected in the contents of the papers, which serve to enrich our body of knowledge. World-leading radiologists from many countries are serving on the editorial board of our journal.

The KJR now has an electronic submission and review system. Currently, the KJR is published monthly. Since the year 2002, the full content of the journal can be accessed online on the KJR website.
KSR Fellowship Program

Objectives

The objectives of the fellowship are to promote research by specialists in radiology and to train them in Korean academic institutions. The fellowship also aims to contribute to the distribution and improvement of radiology, encouraging mutual understanding as well as scientific cooperation.

Term and Period of Clinical Training and/or Research

1. The term for clinical training and/or research shall be at least 1 month and at most 3 months in principle.
2. The period of clinical training and/or research shall not be altered in principle.
3. The recipients must start the training in their applicable year.
4. The due date for the application is August 30th of the previous year preceding the fellowship, and applicants are given an official notification in October from KSR.

Eligibility

1. Age: Recipients may be up to 40 years of age.
2. Career: Recipients must be specialists with sufficient training and experience in radiology who have graduated from a medical college.
3. Language: Recipients must be fluent in English or Korean to be able to complete the clinical training and/or research.

Grant for Recipients

1. KSR sponsors visiting fellows in Korea.
2. The grant includes air-fare and minimum cost of living.
3. The maximum limit of the grant per recipient will be KRW 5,500,000.
4. The maximum limit of monthly support will be KRW 1,500,000.
5. The maximum limit for economy-class airfare reimbursement will be KRW 1,000,000.
6. If the recipient receives other financial support during his/her stay in Korea, KSR will stop the grant, and the responsibility for the recipient will be transferred to the new supporter.

Deadline for KSR Fellowship Application: August 31 of the preceding year
For further information, please visit: www.myksr.org
KSR International Membership

Join KSR Now! Welcome to the KSR.
When you join KSR, you can enjoy many valuable benefits.

Benefits

- Free membership dues
- KCR 2021 discount on KCR registration fees
- Free access to KJR (Korean Journal of Radiology)
- Free access to KSR website and e-learning system
- Free subscription to KSR news
- Priority consideration for KSR fellowship
- Award programs

Eligibility for International Membership

- International Membership is only for non-Korean experts only.
- International Members are radiologists, medical physicists, radiologic scientists, and experts who have a related degree in radiology.
- International Members are recommended to attend KCR.
- International Members shall be approved by the Board of Directors of KSR.

Application for International Membership

- Application by e-mail (office@radiology.or.kr) with completed application form and a copy of your curriculum vitae;
- Application on the KSR website (www.myksr.org);
- Or just the visit KSR/KCR Booth with completed application form.

Maintenance of Membership

*Membership extends from January 1 to December 31 of the calendar year regardless of the joining date.

- Membership is effective upon the processing of the application and activation of the new membership account.
- International Membership is valid for three years.
- International Member should submit a renewal form of International Membership to KSR via the website before termination of his/her membership.
- International Membership may be terminated by writing or email request by the member.
- International Membership may be terminated by agreement of the KSR Board of Directors in the case of a member’s harmful activity against KSR.
